4) Interview Summary (PTO-413) Paper No(s)/Mail Date. ___

6) Other: ____.

5) Notice of Informal Patent Application (PTO-152)

Application/Control Number: 10/807,674

Art Unit: 2841

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1-7 drawn to method of manufacturing, classified in class 29, subclass 252+.
- II. Claim 8-11, drawn to a heat spreader module, classified in class 257, subclass 675+.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case method is use to manufacture the heat spreader..

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Stephen P. Burr on 12/05/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

of the by

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to HUNG T. NGUYEN whose telephone number is 571-

272-5983. The examiner can normally be reached on 8:00AM-5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, KAMMIE CUNEO can be reached on 571-272-1957. The fax phone number

for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published

applications may be obtained from either Private PAIR or Public PAIR.

information for unpublished applications is available through Private PAIR only. For

more information about the PAIR system, see http://pair-direct.uspto.gov. Should you

have questions on access to the Private PAIR system, contact the Electronic Business

Center (EBC) at 866-217-9197 (toll-free).
